

BRONZE BOOMERANG - TEST # 10 SCIENTIFIC DISCOVERY

The World Around Us

OPTIONAL

Cub Scouts must do any two of the following

1	Biology: Grow some seeds on cotton wool and observe what happens.	
2	Geology: Identify five different rocks and tell where you found them.	
3	Physics:	
	a. Explain the composition of air.	
	b. Perform an experiment that shows how oxygen can be used up.	
4	Estimation:	
	a. Measure your hand and foot.	
	b. Using these measurements estimate the width of your Scout Hall and the height of a Cub Scout.
