

**LEVEL 2 - FLIGHT**

1

Make and fly a model plane.

2

Identify five aircraft either in the air or from pictures or models. Explain the use of each aircraft and how it is propelled.

3

Explain how airplanes are steered in the air and how they take off and land.

4

Inspect an airplane at close quarters. Watch a plane taking off and landing. Observe what happens, make sketches of the process and explain what is happening.

**EXAMINER:**

**DATE COMPLETED:**

<b>CUBS TESTED</b>
